

Rise Mentor Program

For those looking to give back, Rise offers a variety of meaningful opportunities to provide support and advice to our entrepreneurs. Mentorship wraps fundamentally around all of our programming. It doesn't take a lot of time to make a huge difference!

What Current Mentors Have to Say

"Looking into the eyes of someone and knowing that you're coaching and support made a difference to them is all the reward one could ask for."

"I believe the best way to help people is to give them the tools to help themselves, and in the process they will also help others."

"Providing assistance to achieve success has been rewarding for us both - the mentee and the mentor!"

"I have always believed one of the best ways to learn and grow is to mentor and teach."

Work with Rise Clients!

Entrepreneur Mentor: Our mentorship program is designed to provide Rise entrepreneurs with support and guidance as they implement their plans to maintain and grow their businesses for that critically important first year as a financed business.

Peer Support Mentor: Instead of mentoring just one client, the Peer Support Mentor works with a group of 3-6 entrepreneurs once a month for a year. These entrepreneurs will have just completed a month-long training program and produced a business plan that they are excited to implement!

Entrepreneur Coach: Sometimes prospective lending clients need help with working out their business model or identifying target markets. A pre-disbursement coach helps clients conceptualize their business, understand their market better and articulate the problem and need that their business seeks to solve and meet.

Youth Coach: Help a young entrepreneur! Serve as an integral part of our award-winning Youth Small Business Program by coming out to 3 evening classes (2-hours each) over a 3 month period. You will be matched up with a youth who needs your experience. Coaches are also invited to attend the graduation session when participants formally "pitch" their business ideas, but you won't find any dragon's in this den!

Subject Matter Advisor: There are certain areas of expertise that are needed to answer common questions with respect to a wide variety of client businesses. For example, clients often require targeted advice about social media, marketing, business organization type (partnership, sole proprietorship, incorporation), tax etc. Rise draws upon subject matter advisors to work with clients over the phone in an episodic fashion to overcome commonly experienced business sticking points.

About Rise

Rise Asset Development is a registered charity that provides low-interest small business loans, training and mentorship to men and women with a history of mental health or addictions challenges.
